89.40%

PROJECTS

Industrial Visit Management System (IP, IOT)
(01/2019 – 04/2019)

- It is a website which helps school/college students to plan their travel with ease. The in-charge can choose the destination to travel and make bookings online. The members of travel group will be allocated RFID tags, so that their presence or absence at every site can be recorded easily by incharge.

Hotel Management System (DBMS) (08/2018 – 11/2018)

- It was our very first project in database system. This system helped to save customers personal details, room booking details, payment details, cancellation details, etc.

Automated Parking System (WIRELESS) (2020 – Present)

- It is a wireless system that helps in parking of vehicles efficiently. If space for any vehicle is vacant, the sensors will detect it and notify it to admin. The time taken by a particular vehicle will also be displayed.

WORK EXPERIENCE

MANAGEMENT INTERN CONSCRIPT HR ADVISORS

12/2019 – 02/2020

Achievements/Tasks

- Interview and evaluate applicants for Internship in Digital Marketing, Career Counselling, Journalism, Content Writing and Voice Over. Send test assignment
- Administer Test Assignment to Shortlisted Interns. Send Offer Letter to Final Selects.
- Allocate Tasks and Co-ordinate for timely completion. Communicate and clarify any queries.
- Communicate and Co-ordinate with Mentors and Interns on Task Submission of Acceptance and Feedbacks
- Manage and Update relevant records to track the progress of Project and intern
