Birthday Times

I feel we're the closest of all , staying just 20 feet apart since the last 20 years and spending a lot of our early childhood together. Although I don't remember any memory from that time but it's been great to have you around. I've always admired your patience and how you remain calm in all situations. Looking forward to spend my early 20s with you too. Happy Birthday Area wale 🎂💕

Happy Birthday Sanjay
